

Neuro-Wise Leadership

A new lens on trust, passion and performance

Half Day Workshop

High Trust = High Profit

Be empowered to dramatically boost your organisational, team and personal success.

Are you hearing the whispers of leading global organisations drawing on brain science to optimise performance and profitability?

This is the opportunity to share in some lesser known surprises about how to leverage the power of trust.

Do you...

- Understand the smartest way to improve performance?
- Know how to double your profitability?
- Know how to improve trust engagement in team or organisation?

You will pique awareness:

- Fear-based management and the brain.
- The business case for trust and ethical leadership.

This half day workshop is designed to...

- Impact business success through simple brain principles.
- Uncover the obstacles to performance and trust.
- Develop your next steps toward catalysing a climate of trust.

Delegates can expect to...

Leave the workshop inspired and equipped with a neuro-savvy approach to engaging others and planting the seeds of a trust based culture.

Our facilitator

Lynn Andriés

Lynn is a professional development consultant, facilitator and executive coach. She has dedicated herself to unearthing a missing link in leadership development. Her focus is on helping organisations boost trust and performance through an understanding of the brain. Off a strong cross-industry experience platform, Lynn articulates insights emerging from current research, enriching the practice of leadership, business development, teamwork and client-engagement. She holds a MSc. in Professional Development (Neuroscience of Leadership) from Middlesex University, and is currently engaged in doctoral studies. She is considered intuitive, determined and courageous in both life and business.
