

Neuro-Wise Leadership

A new lens on trust, passion and performance

Introductory Session

High Trust = High Profit

Be empowered to dramatically boost your organisational, team and personal success.

Are you hearing the whispers of leading global organisations drawing on brain science to optimise performance and profitability?

This is the opportunity to share in some lesser known surprises about how to leverage the power of trust.

Do you...

- Understand the smartest way to improve performance?
- Know how to double your profitability?
- Know how to improve trust engagement in team or organisation?

This two hour introductory session is designed to...

- Give you a new perspective on how to impact business success through simple principles of the brain.
- Provide insight how trust can accelerate respect, results, revenue and reputation.

You will gain an awareness of...

- The business case for trust and ethical leadership.
- The impact of fear-based management on performance.
- The brain's perspective on trust, and what it takes to develop it.
- How an intelligent approach to managing the social brain can save your career.

Delegates can expect to...

Leave the session inspired and equipped with a practical, brain-friendly tool for influencing trust in both the workplace and personal environments.

More about Lynn

Lynn Andriés

Lynn is a professional development consultant, facilitator and executive coach. She has dedicated herself to unearthing a missing link in leadership development. Her focus is on helping organisations boost trust and performance through an understanding of the brain. Off a strong cross-industry experience platform, Lynn articulates insights emerging from current research, enriching the practice of leadership, business development, teamwork and client-engagement. She holds a MSc. in Professional Development (Neuroscience of Leadership) from Middlesex University, and is currently engaged in doctoral studies. She is considered intuitive, determined and courageous in both life and business.
