

Surviving Workplace Bullying

From being bullied to being bully proof

Half Day Workshop

**Workplace bullying is on the rise
with 96% of people claiming
to have experienced it**

- VitalSmarts Report

Whatever the form, the impact of bullying is severe, destructive and may fall on the spectrum of psychopathic behaviour. This workshop aims to close some gaps in understanding the bully in the workplace and provides tools for dealing with their behaviours from both a systemic and an individual approach.

Workplace bullying is a persistent pattern of mistreatment from others in the workplace that causes harm. It can include such tactics as verbal, nonverbal, psychological, physical abuse and humiliation and may be covert or overt. Negative effects are not limited to the targeted individuals, and may lead to a decline in employee morale and a change in organisational culture.

Topics covered

- How bullying shows up in the workplace
- Understanding the dynamics of the workplace bully
- The impact on individuals, teams and organisations
- Looking at the corporate culture as an enabler
- What are our triggers and how to manage them?
- The solution – what can we do about it?
